Release notes, July 1, 2015

Assertion criteria

ClinVar variant pages now include links to the assertion criteria provided by submitters, on the Clinical assertions tab, in the column for Review status

(Assertion method). For example:

<http://www.ncbi.nlm.nih.gov/clinvar/variation/44763/#clinical-assertions>

Study description

Submissions that are part of a named study may have a text description of that study. This description is now displayed on variant pages, on the Clinical assertions tab, in the column for Submitter - Study name (Last submitted). For example:

<http://www.ncbi.nlm.nih.gov/clinvar/variation/192190/#clinical-assertions>

Search results table

The table of search results now shows 100 rows and is sorted by location on the genome, by default.
