"beta" version of a new variant-centric XML file	<p>We have developed a new variant-centric XML file that aggregates all submitted disease/phenotype information by variant (or set of variants). The new product, called ClinVarVariationRelease, is currently in beta release; however, further development is on hold. If your work depends on moving this new file into production, please let us know by emailing clinvar@ncbi.nlm.nih.gov.</p> <p>The beta release is updated bi-weekly; the release notes note updates to the XSD and known issues.</p> <p>Read our blog post for more information: https://ncbiinsights.ncbi.nlm.nih.gov/2017/07/25/clinvar-variant-based-xml-summaries/</p>
