

GO Community

Seth Carbon, Monica Munoz-Torres, Rama Balakrishnan,
Rachael Huntley, and Ranjana Kishore

Berkeley BOP (<http://berkeleybop.org>),
Lawrence Berkeley National Lab

October 4, 2013

Recap

- Old site has many problems
 - unorganized, inconsistent, out of date, etc.

Recap

- Old site has many problems
 - unorganized, inconsistent, out of date, etc.
- New site does not
 - Reorganized
 - Enforced workflows
 - Using Drupal (with Bootstrap for easy skinning)

What Does It Have?

Features

- Integrated news
- Community activity and feeds
- Statistics (on site from AmiGO 2 & Jenkins, come see me)
- Content push (out to Facebook, Twitter, flavor of the week)
- Member project pages
- Trivial update by members
- ??? (Let's talk!)

On the web

What is the Gene Ontology?

What are Ontologies? Development and Collaborations Relevance to Human Biology Downloads What are Annotations? How to Make Annotations Enrichment Downloads Collaborations Outreach

Where we're at

Timeline

- Finish porting content into the new site
 - We'll come back to this
- Finish any final development
 - Any additional requirements? (Added projects yesterday)
- Move site to final location

These can all be done independently.

How to work with it

- “Editors” have the ability to add and edit.
- Enforced tagging
 - User stories
 - Content tags
- Working in a Larger Scope
 - On twitter: @news4go / #geneontology
 - How to handle Facebook, Tumblr, etc.?

Getting Started

- Interested people need accounts
 - GO Help
 - Who else?

Getting Started

- Interested people need accounts
 - GO Help
 - Who else?
- Assign names to documents
 - See the Google doc
