Clinical Molecular Genetics Laboratory, Johns Hopkins All Children's Hospital	Clinical Molecular Genetics Laboratory, Johns Hopkins All Children's Hospital submitted 255 novel variant interpretations.
Center for Human Genetics, Inc	Center for Human Genetics, Inc submitted 183 novel variant interpretations.
Geisinger Autism and Developmental Medicine Institute, Geisinger Health System	Geisinger Autism and Developmental Medicine Institute, Geisinger Health System submitted 143 novel variant interpretations.
True Health Diagnostics	True Health Diagnostics submitted 106 novel variant interpretations.

"beta" version of a new variant-centric XML file

We have developed a new variant-centric XML file that aggregates all submitted disease/phenotype information by variant (or set of variants). The new product, called **ClinVarVariationRelease**, is currently in **beta release**; however, further development is on hold. If your work depends on moving this new file into production, please let us know by emailing clinvar@ncbi.nlm.nih.gov.

The beta release is updated bi-weekly; the release notes describe updates to the XSD and known issues.

Read our blog post for more information:
